

Success for us is being proud of what we achieve and how we achieve it.

We are a Canadian leader in sustainable timberlands management, and we strive to be a global leader in implementing the latest safety innovations and technologies across our operations on the BC Coast. We are expanding our team, and invite you to join our modern, renewable resource company.

The Opportunity

Mosaic Forest Management, the timberlands manager for TimberWest Forest Corp. and Island Timberlands Limited Partnership, is looking for two (2) **GIS Technician(s)** to work out of our Nanaimo, BC office.

The Role

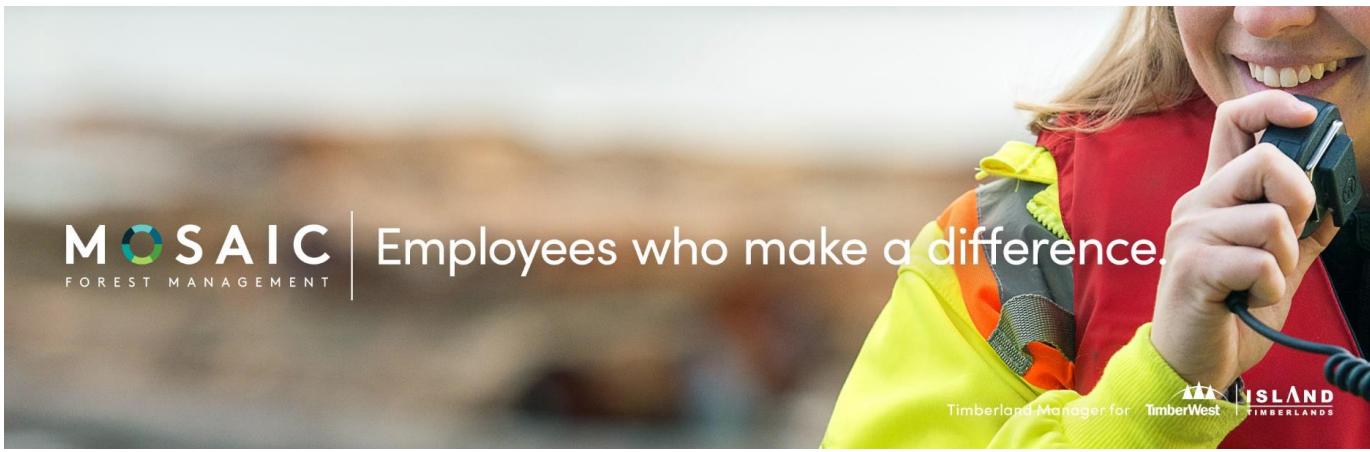

Reporting to the Manager, Timberlands Planning the GIS technician will support Strategic Tactical and Operational Timberlands activities while maintaining a high standard in Forest Management of safety, environment, quality, productivity, and costs. This position requires leadership and commitment to our safety and environmental management systems. Specific responsibilities include, but are not limited to:

- > Improve and maintain forest database records, manipulate and analyze GIS data
- > Implement solutions with an understanding of large enterprise data sets that incorporate other business rules and applications.
- > Perform systematic editing, queries, and mapping requests in an ever-evolving technology field.
- > Work in alignment and support other business focus group with spatial and data requests.
- > Maintain and foster good relationships with First Nations, government agencies, and industry players to preserve and enhance Mosaic's position within the industry and the overall community.
- > Safety is a key focus of everyone at Mosaic Forest Management. The successful candidate will provide safety leadership through personal example, with a strong focus on achieving world-class safety performance and adhering to living, and promoting the Mosaic values daily.

- > Understand and support Mosaic's leadership in environmental standards.
- > Advance Mosaic's financial goals by improving data management.

Required Skills and Experience

- > Post-secondary degree or Diploma in GIS from a recognized accredited institution.
- > A background in Computer Science, GIS, Forestry or environmental science.
- > 1 – 3 years' experience using GIS and other data systems.
- > Accreditation with the ABCFP as a Registered Professional Forester, or a Registered Forest Technologist, would be a benefit.
- > Proficiency in ESRI suite of software including online solutions. Knowledge of FIS software such as Trimble Land Resource Manager and Trimble Resources.
- > Knowledge or experience in Structure Query Language (SQL), ability to create automated tasks using model builder or Python and an understanding of relational database management systems.
- > Aptitude with Microsoft, RoadEng, GPS, and other mapping and evolving computer applications.
- > An understanding of LiDAR and photogrammetry data sets.
- > Valid BC Drivers Licence.
- > Demonstrated ability to work effectively in a team environment
- > Self-starter that can effectively organize, plan work and prioritize resources to deliver divisional and departmental plans and activities.
- > Superior interpersonal, oral and written communications skills.
- > Attention to detail. Action and results oriented.

Success for us is being proud of what we achieve and how we achieve it.

We are a Canadian leader in sustainable timberlands management, and we strive to be a global leader in implementing the latest safety innovations and technologies across our operations on the BC Coast. We are expanding our team, and invite you to join our modern, renewable resource company.

What You Get

Mosaic Forest Management offers a comprehensive and competitive benefits package which includes life on the West Coast of Canada, a company pension, health and dental coverage, accident and disability insurance, paid vacation and health and wellness incentives along with several other benefits and perks.

Application Submission

Please submit your cover letter and resume to careers@mosaicforests.com. Use "GIS Technician" – YOUR NAME" in the subject line.
